Looker Studio Visualizations (40)
Visualizations built and supported by Looker Studio.

100% stacked area
By Google
See how your data trends over time.

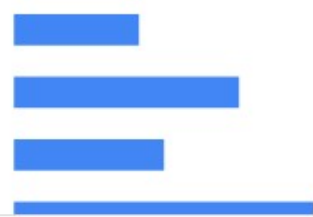

100% stacked Bar
By Google
A 100% stacked horizontal bar chart to show comparisons among categories.

100% stacked column
By Google
A 100% stacked vertical bar chart to show comparisons among categories.

Area
By Google
See how your data trends over time.

Bar
By Google
A horizontal bar chart to show comparisons among categories.

Bubble
By Google
Use a bubble chart to look for relationships between variables.

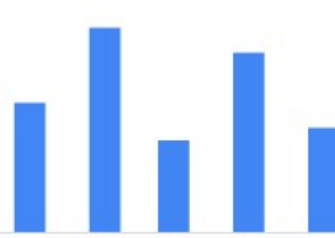

Bubble map
By Google
Use Google Maps to explore your geographic data as colored circles.

Bullet
By Google
Quickly see how well a given metric is performing against target benchmarks.

Candlestick
By Google
A candlestick chart. Shows an opening and closing value with a total variance.

Column
By Google
A vertical bar chart to show comparisons among categories.

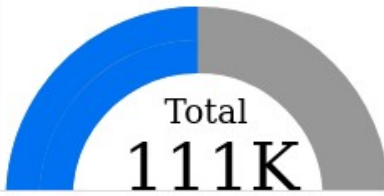

Combo
By Google
See how your data changes or fluctuates, either over time, or when measured against a non-time dimension.

Donut
By Google
Display your data in a circular visualization, with sections (slices of the donut) representing your data series.

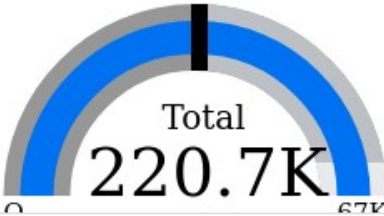

Filled map
By Google
Use Google Maps to explore your geographic data as shaded areas.

Gauge
By Google
Quickly see how well a given metric is performing against a target goal.

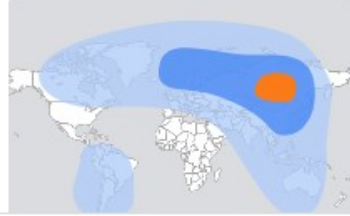

Gauge
By Google
A gauge with a dial.

Gauge with ranges
By Google
Quickly see how well a given metric is performing against a target goal.

Geo chart
By Google
Use Google Charts to visualize how a measurement varies across a geographic area.

Heatmap
By Google
Use Google Maps to explore your geographic data using a color gradient.

Line
By Google
See how your data changes or fluctuates, either over time, or when measured against a non-time

Line map
By Google
Use Google Maps to explore your geographic data as lines or paths over an area.

Pie
By Google
Display your data in a circular visualization, with sections (slices of the pie) representing your data series.

Upload CSV files to Looker Studio

Add data from any source to Looker Studio.

You can bring data into Looker Studio from almost any source by uploading CSV (comma-separated values) files. File upload lets you report on data not supported by a specific connector.

Limits of file upload

File upload is subject to the following limits:

- 1000 data sets per user
- 2GB total storage per user
- 100 uploads per data set per day
- 100MB file size limit per data set

Dicas sobre Dashboards

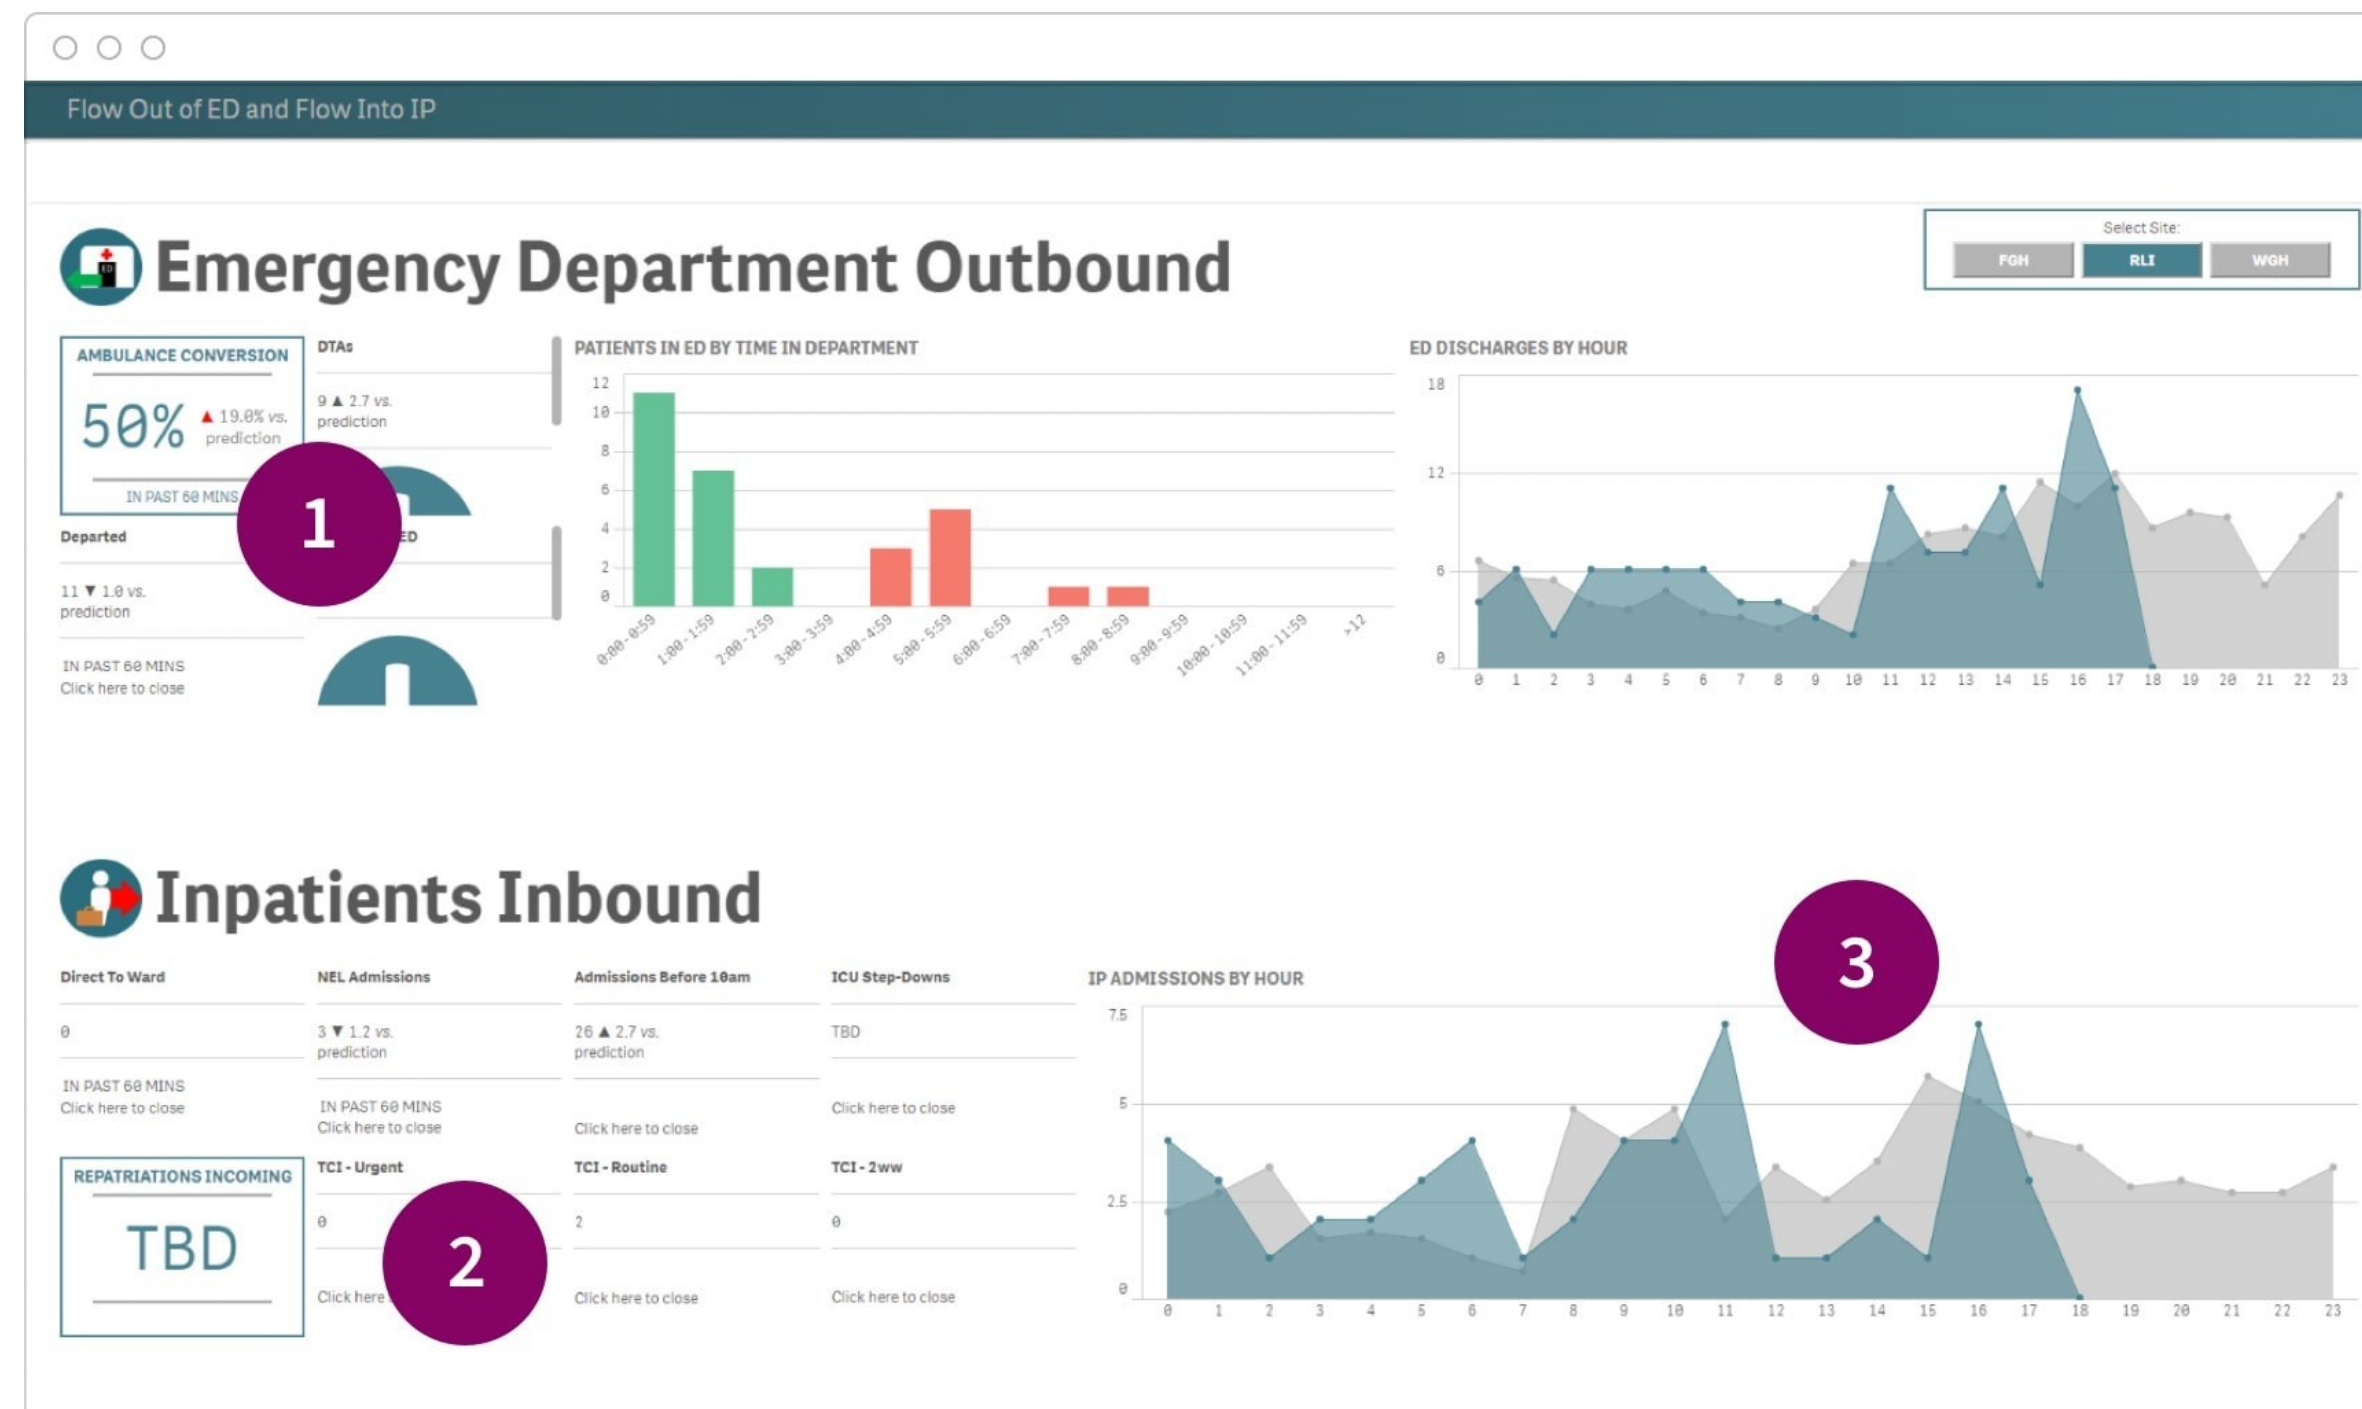

Conheça o seu público.

<https://www.toptal.com/designers/data-visualization/dashboard-design-best-practices>

Tipos de Dashboard

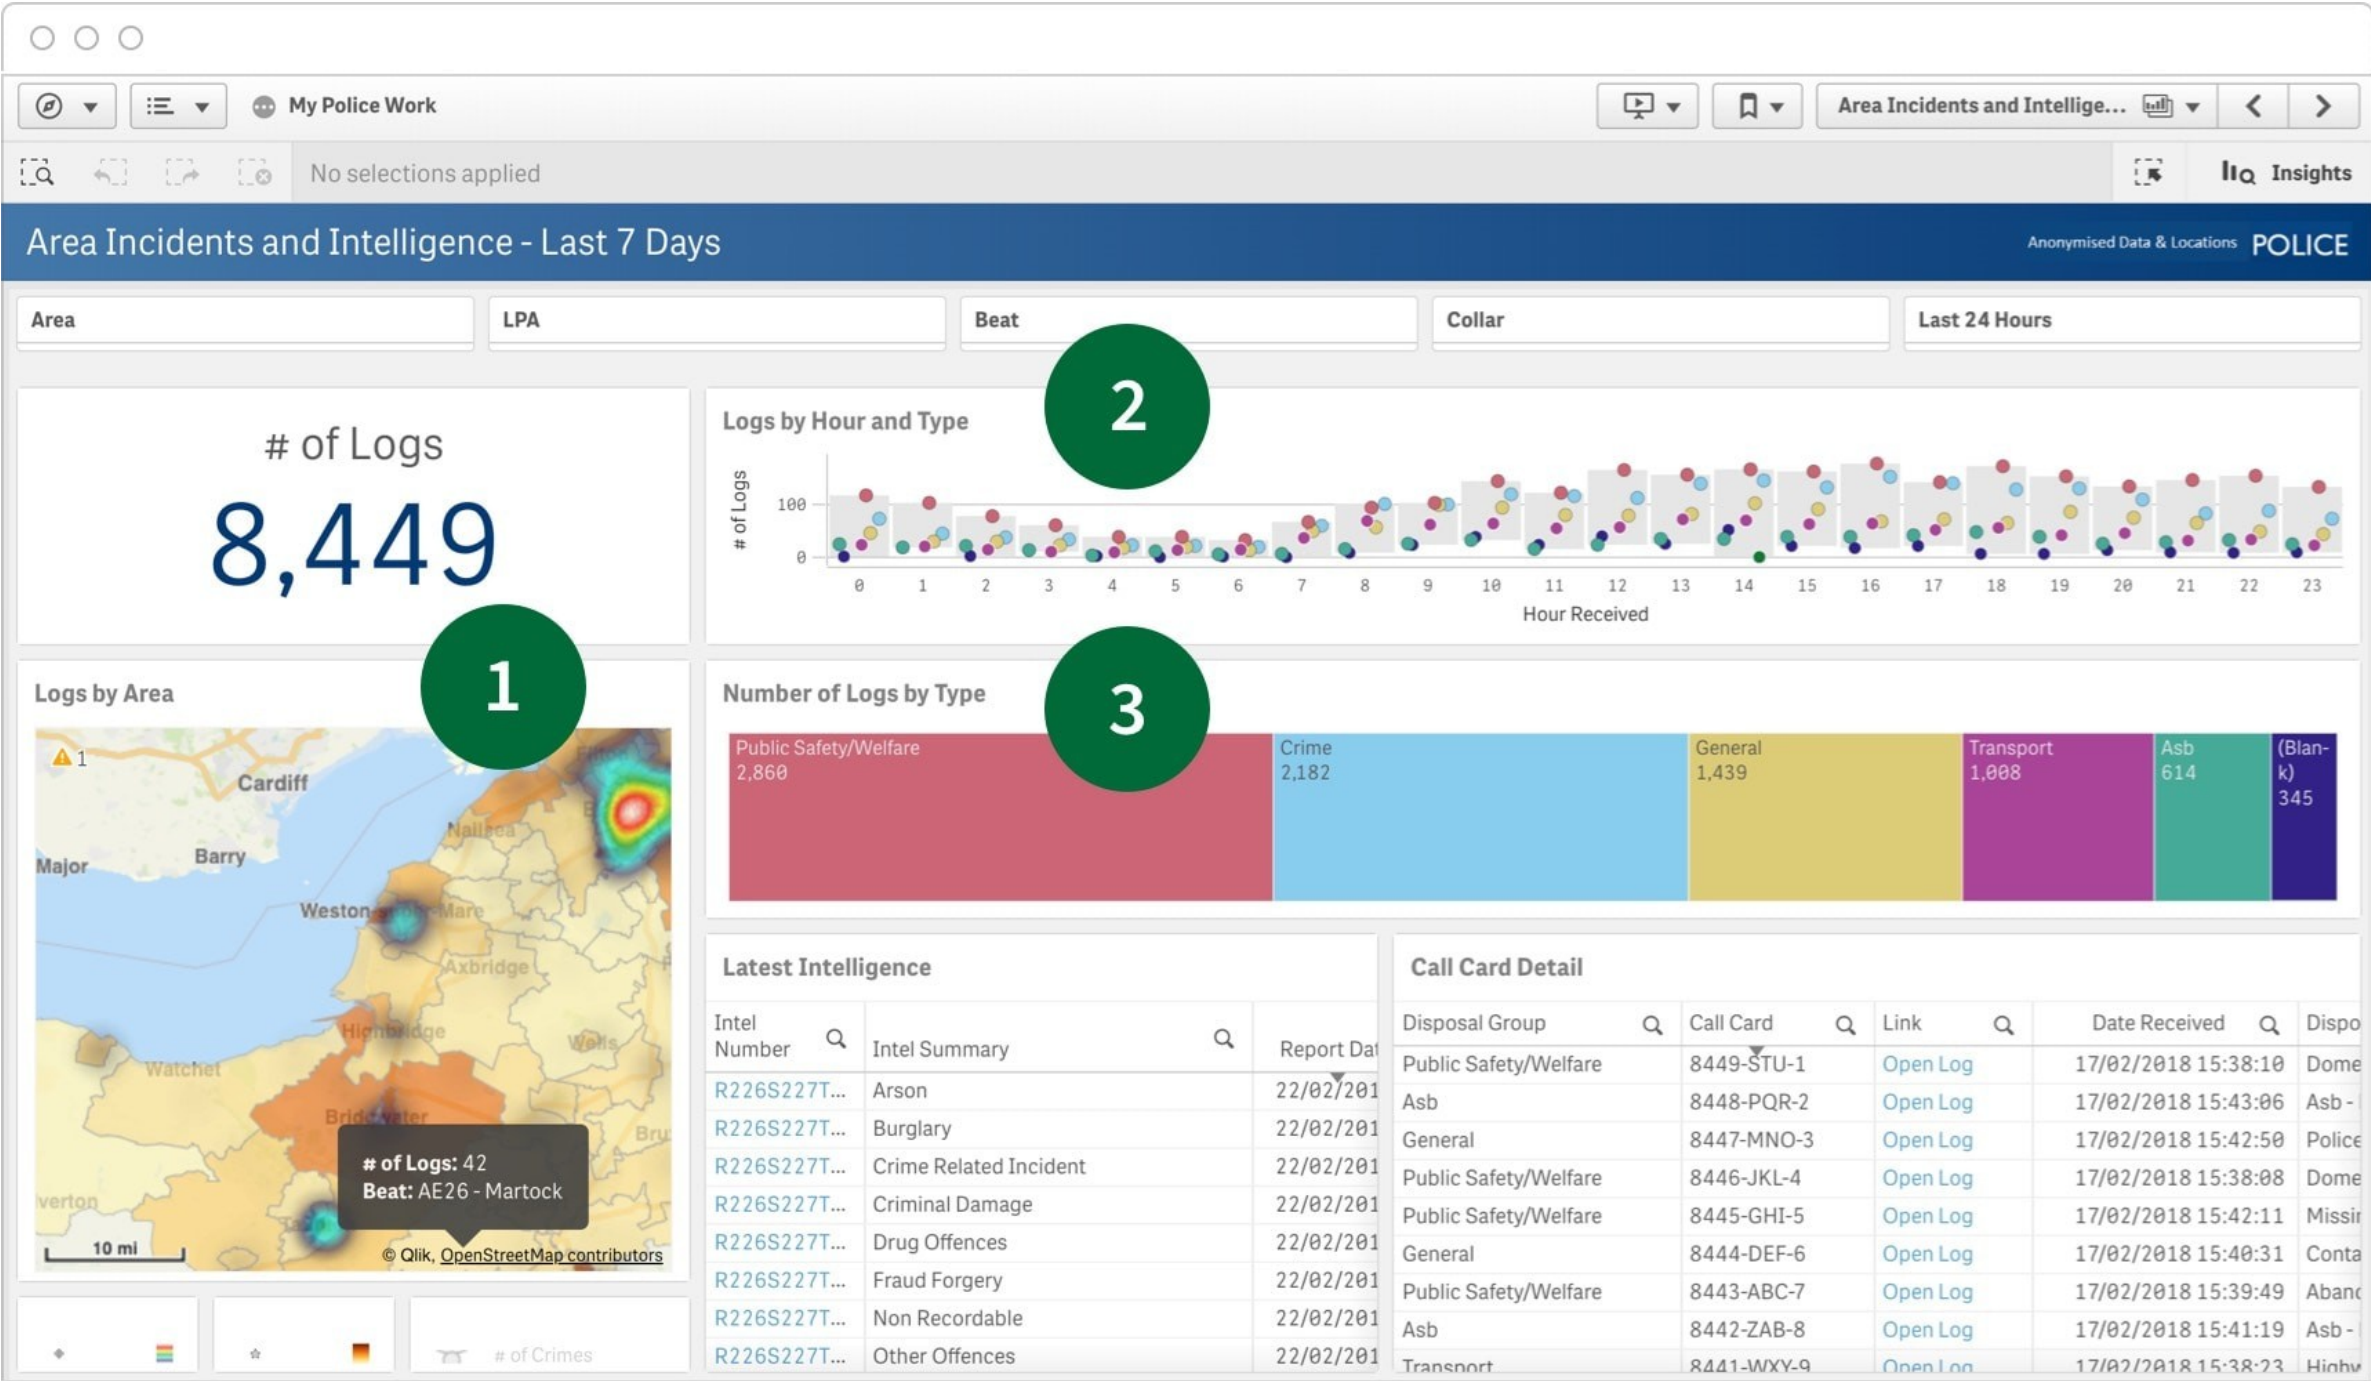

Executive Dashboards: Permitem que os executivos monitorem os principais indicadores de desempenho (**KPIs**) ao longo do tempo.

<https://www.qlik.com/us/dashboard-examples/dashboard-design>

Tipos de Dashboard

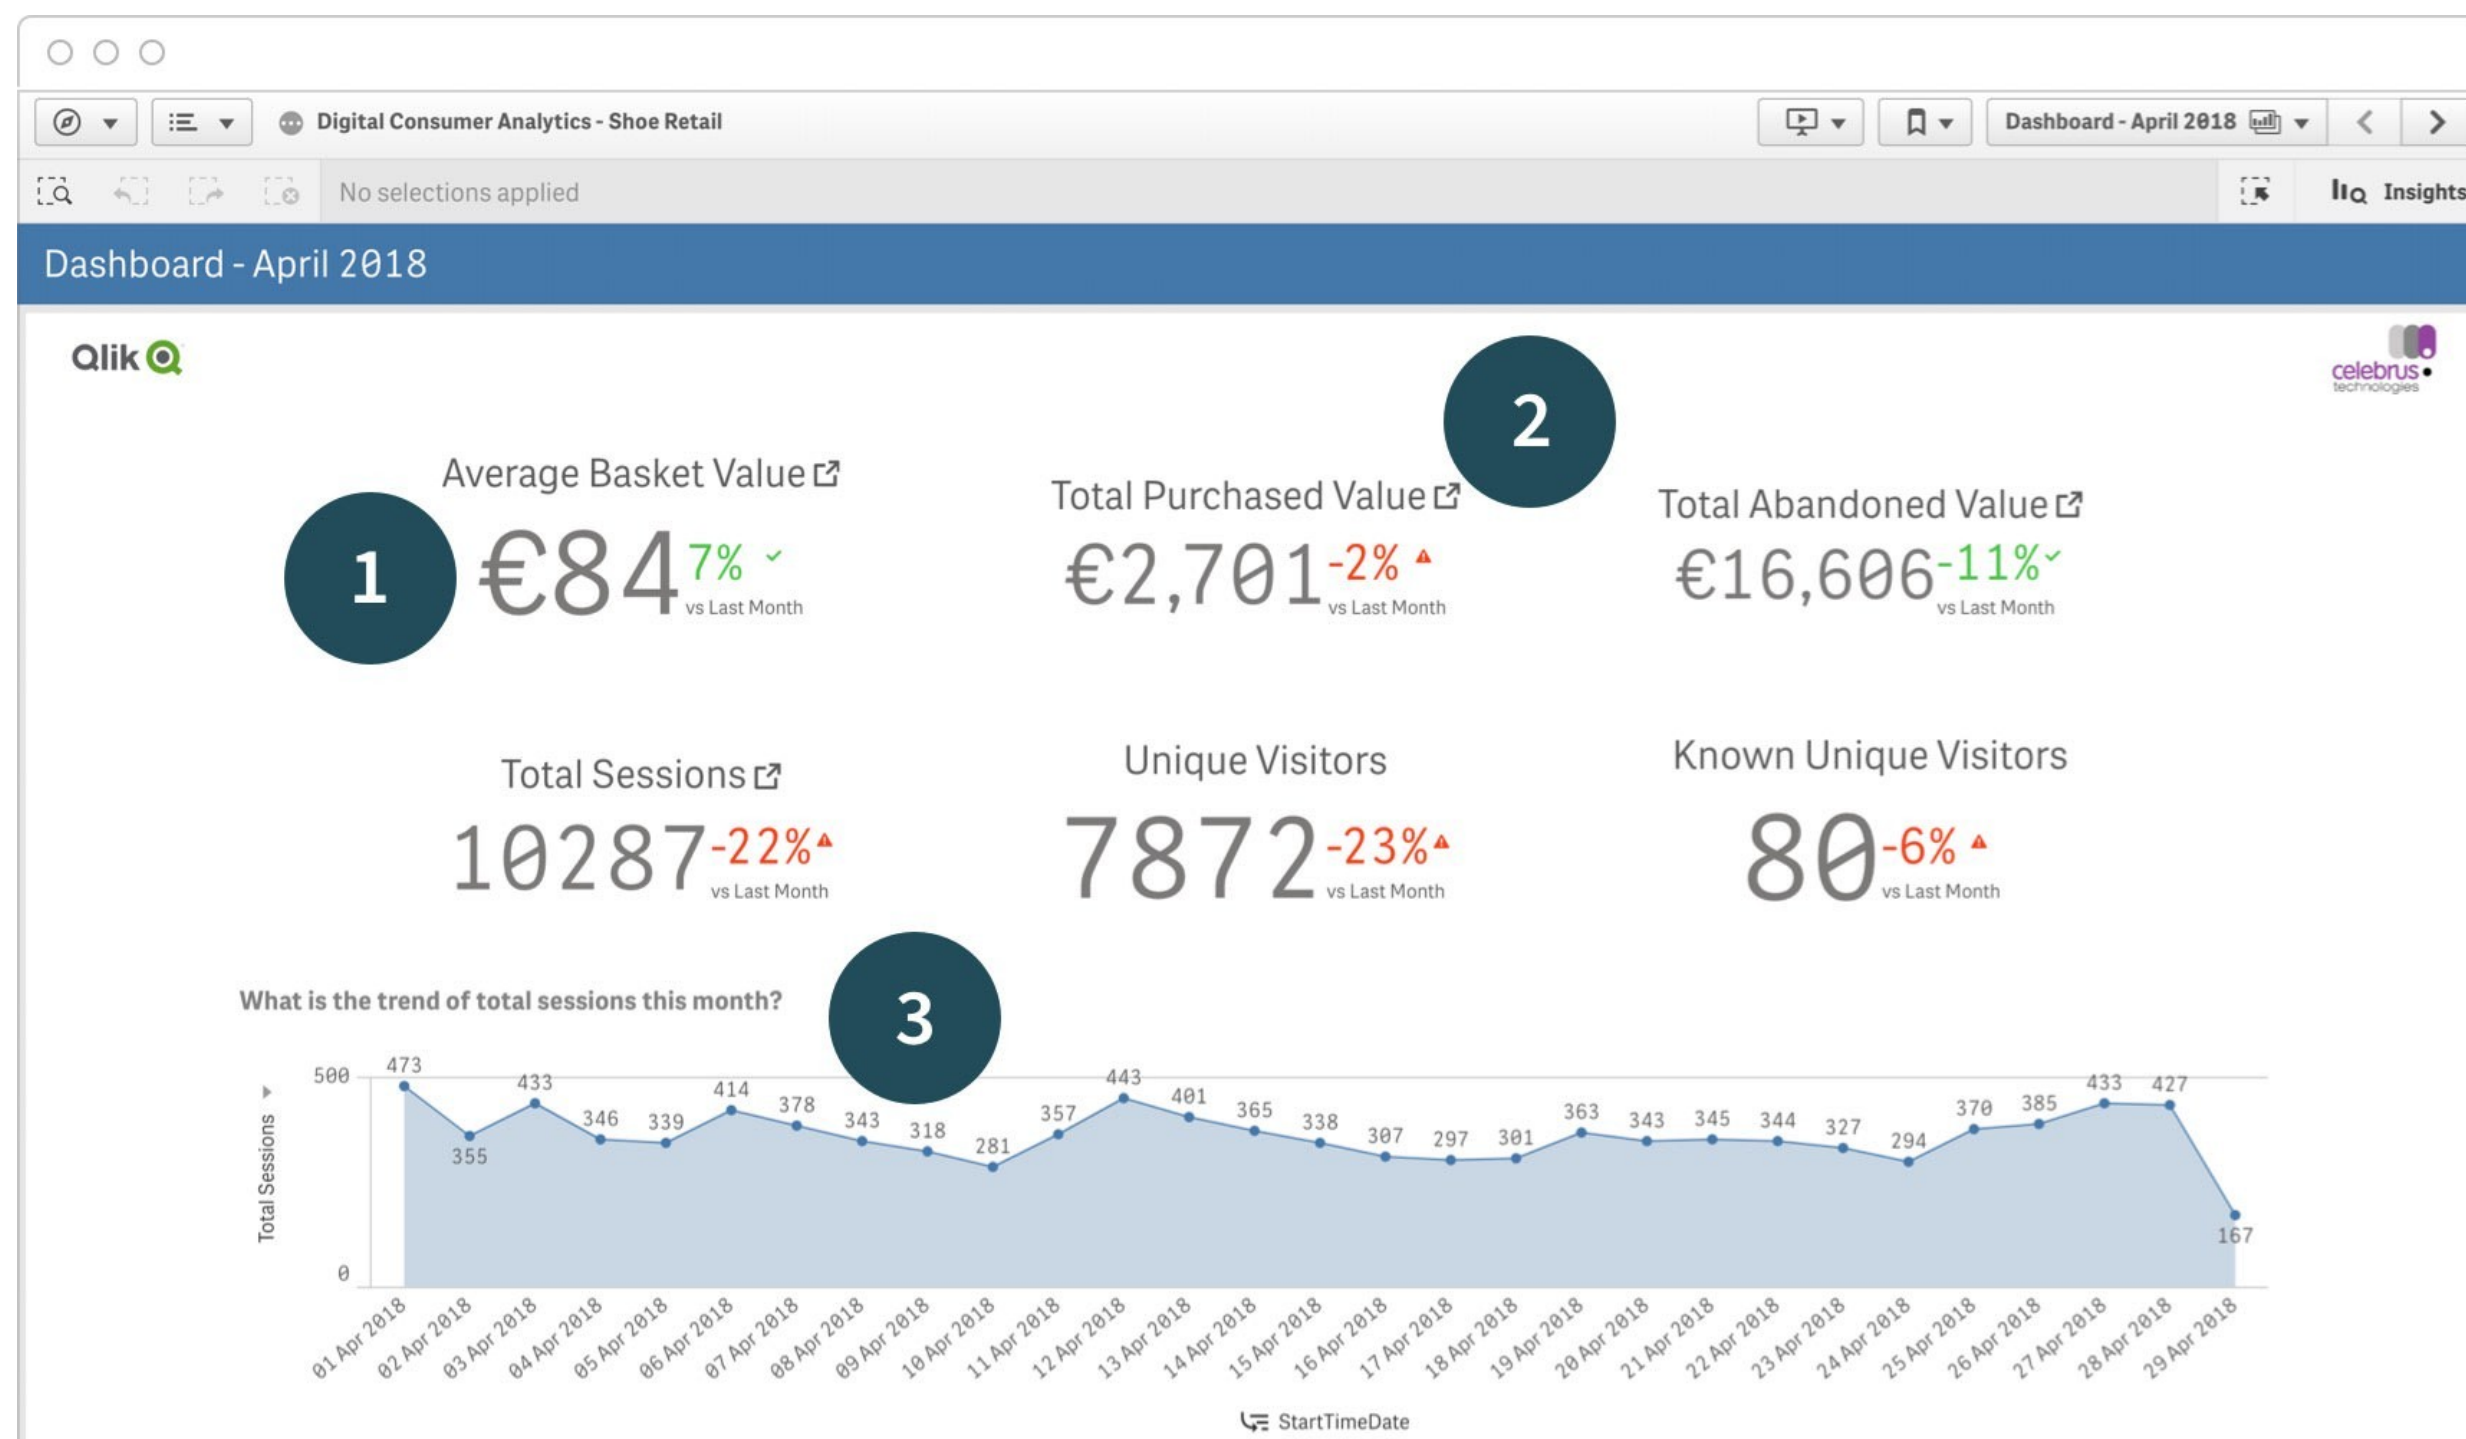

Operational Dashboards: informar rapidamente ao usuário o que está acontecendo no momento e destacar quando e onde ocorrem problemas críticos.

<https://www.qlik.com/us/dashboard-examples/dashboard-design>

Tipos de Dashboard

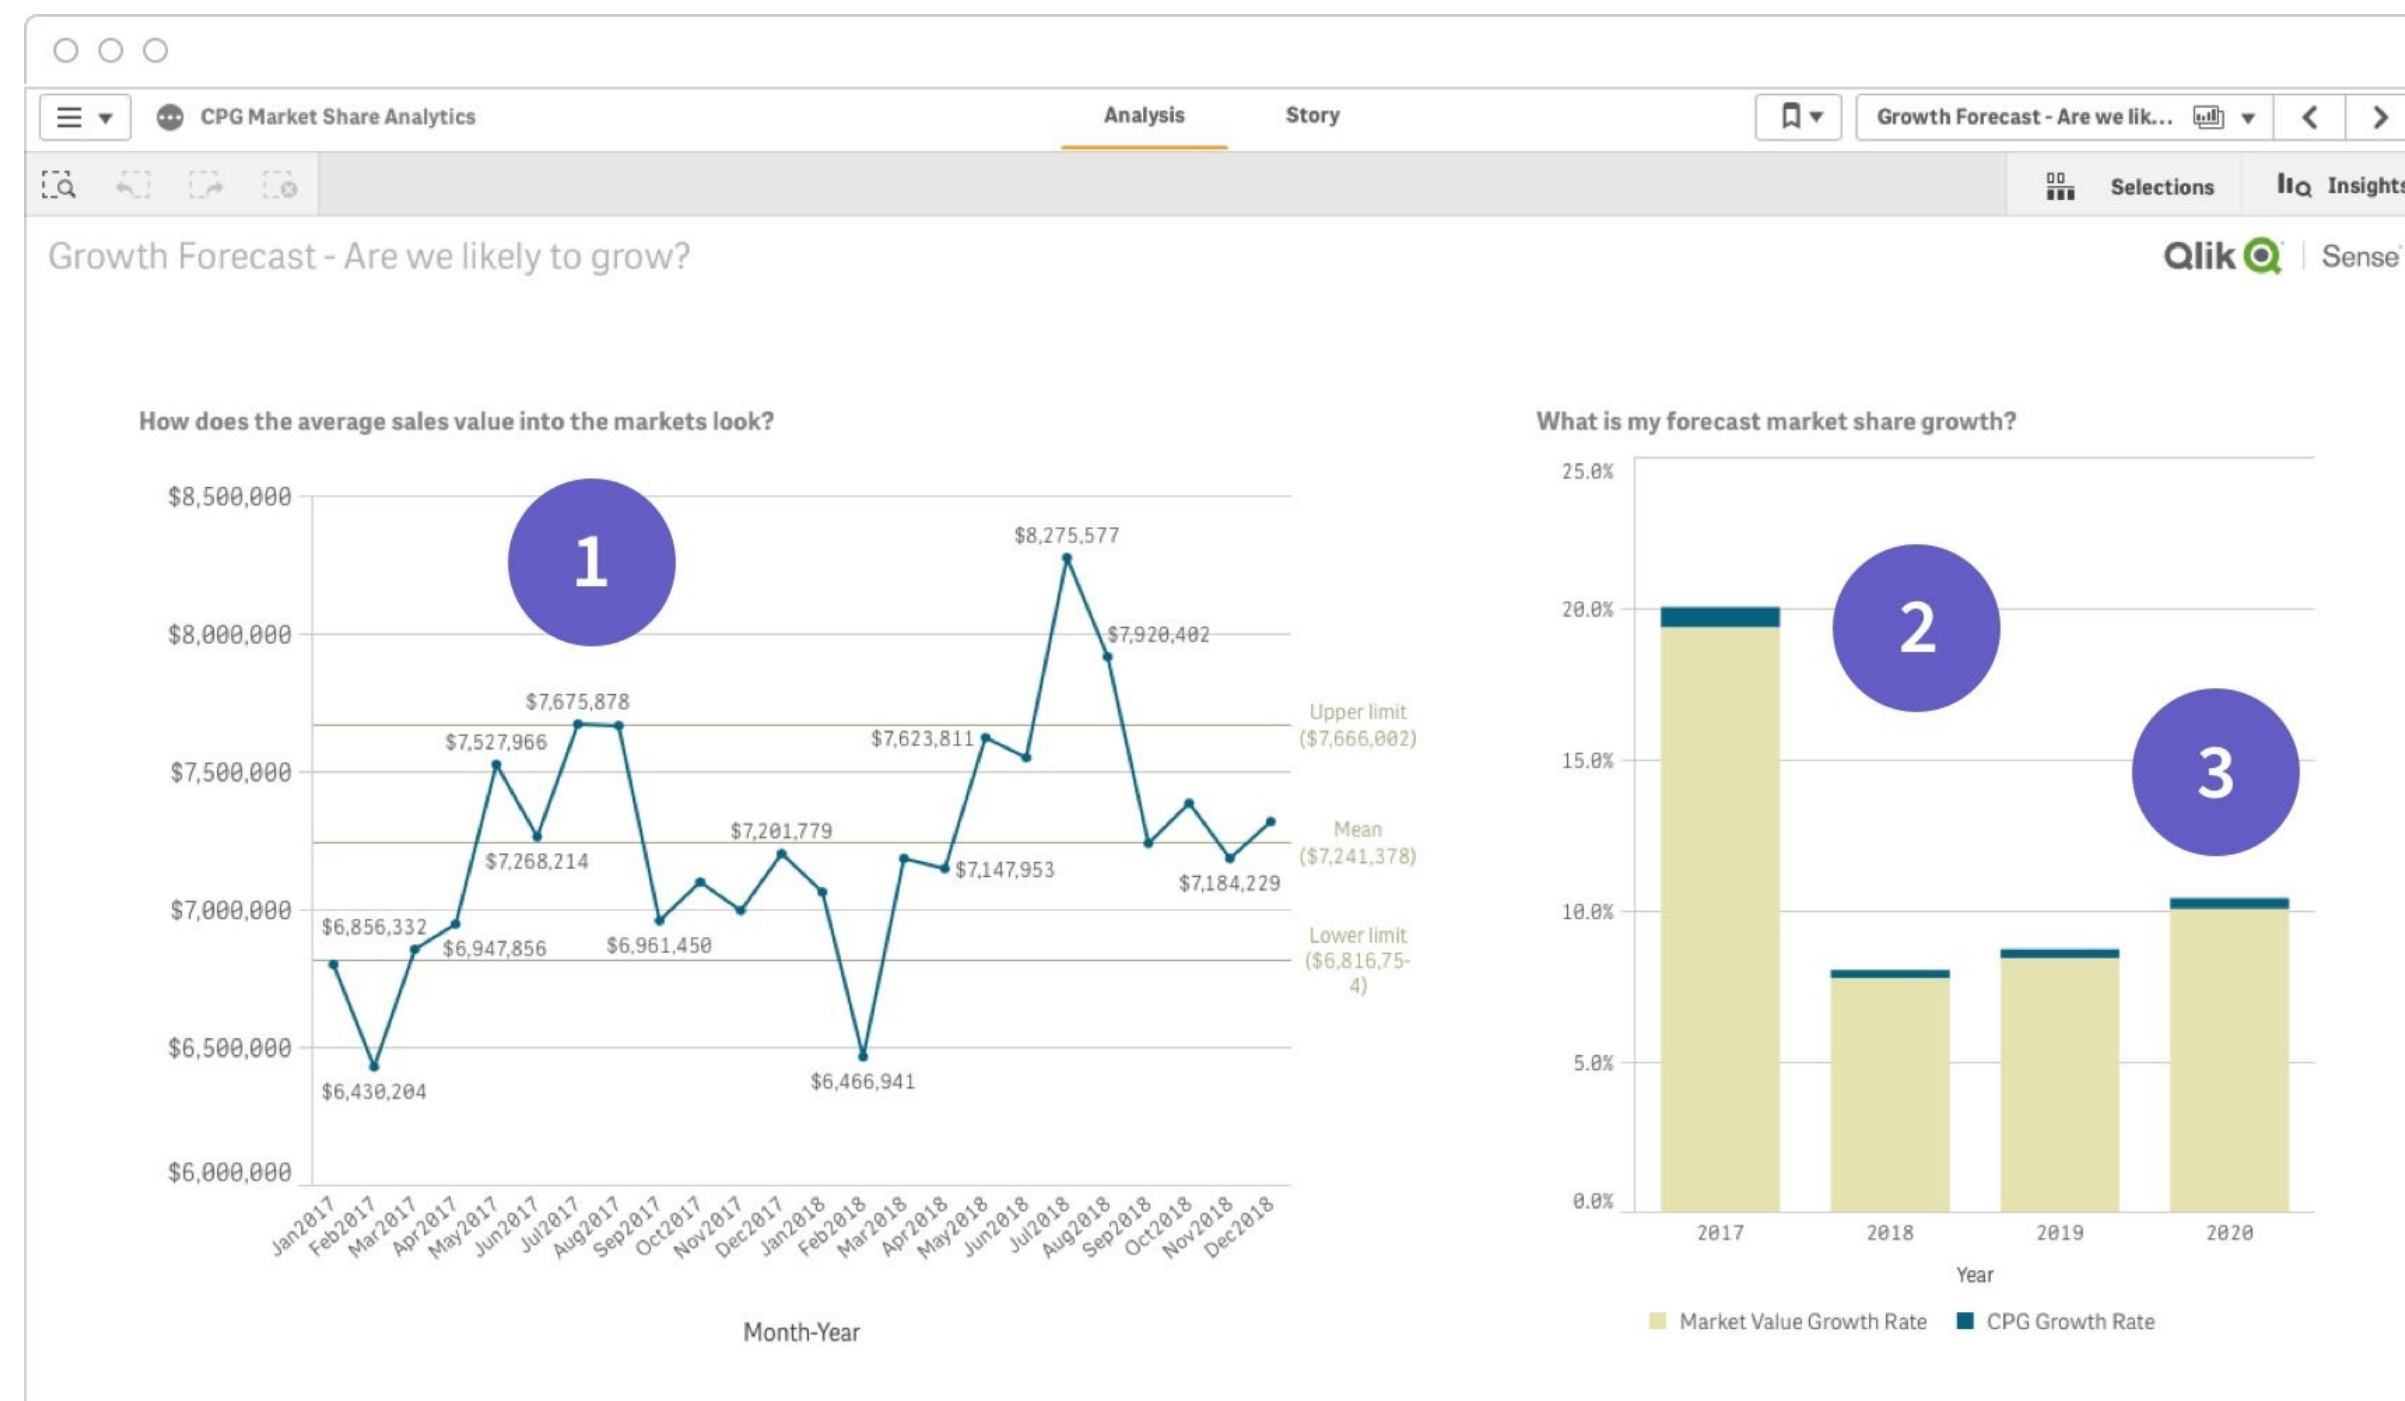

Tactical Dashboards: ajudam os usuários a monitorar o progresso em direção a metas ou períodos de tempo específicos.

<https://www.qlik.com/us/dashboard-examples/dashboard-design>

Tipos de Dashboard

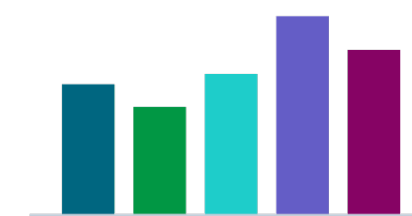

Analytical Dashboards: normalmente criado e usado por analistas como uma ferramenta interativa para ajudá-los a dar melhor suporte aos empresários na análise de tendências e na identificação de problemas.

<https://www.qlik.com/us/dashboard-examples/dashboard-design>

Dicas sobre Dashboards

- Identifique suas principais métricas
- Conte uma história com seus dados
- Escolha os tipos certos de gráficos
